DALLAS 99S SEPTEMBER 2019

The Squawk

By: Peggy Guardiola

Michelle Robinson's New Adventure

Chapter Member Michelle Robinson has recently started an aviation themed business with her husband, Chris. Autopilot Designs was born out of a need for a creative outlet for Michelle to hold onto her sanity during a hectic schedule filled with work and study. Michelle works in Accounting at Southwest Airlines. Her husband flies for Southwest Airlines and teaches initial pilot training for the United States Air Force in the T6. Michelle is a Private Pilot working on her instrument rating and travels with the family in their Piper Lance. They were always trading aviation jokes and finally sat down one day and started putting some of their ideas on t-shirts. Their company offers a wide variety of aviation related apparel such as men's and women's aviation shirts, plane leggings, aviation kids shirts and onsies, sunglasses, aviation jewelry and accessories. The profit they make from Autopilot Designs helps her continue her flight training. Please help support Michelle and check out her website!

Welcome New Members!

Family Picnic!

Our chapter enjoyed a family picnic along with the monthly meeting on July 13, 2019 in Tool, TX. A big Thank You to Susan Doyle for letting us do this at her lake house. All members brought their bathing suit, a side dish, and the family! We held our monthly raffle and even auctioned off a handheld radio! Members in attendance were Michelle Hovey, Karen Zolka, Kaylee Jeffries, Madie Womack, Lynnette Bascom, Susan Doyle, Laurie Peake, Holly Barr (and Snowball), and Kay Alley.

If you have any fun ideas for meetings or aviation events that our group may like to attend, please send suggestions to kayjeffries@hotmail.com

September Chapter Meeting

After our September meeting adjourned, we were joined by the MzeroA video sensation Jason Schappert and 3-time Master Flight Instructor Gary Reeves. The two were in town for their Aviation Master 2 event held over the weekend, and they graciously offered us a humorous and energetic talk about their experiences in aviation and the importance of staying more than just current in your qualifications.

Jason has over 9,500 hrs as ATP, CFI, CFII, and MEI. He is a Best Selling Author, AOPA Distinguished Flight Instructor, and the leader in online check ride training with guaranteed passing. Gary has over 7,500 hrs as ATP, Master CFI/CFII/MEI. He is the Top National Expert in Single-Pilot IFR, National Training Provider for Avidyne & Genesys (S-TEC), and named 2019 FAA National CFI of the Year.

Jason discussed the disadvantages of making training habits, for example, not making a landing during missed instrument approaches or practicing flying on a real soft field as real practice. Gary, a local Dallasonian, talked about his many years in Corporate Aviation and flight training. He even shared stories of a few of the accidents he's encountered and mentioning the many more 'maydays' he's called to prevent accidents. As they mentioned, "a good pilot is always learning" and "keep reviewing the basics." So, keep striving to be the best pilot you can be.

Girls in Aviation Day

Girls in Aviation Day at Frontiers of Flight Museum was held on September 21, 2019. Kay Alley, Jacinta Clement, and Lynnette Bascom operated our booth. There were about 3,000 girls in attendance from 1st grade through high school. The event was sponsored by Women in Aviation and everyone wore pink! There were about 50 vendors present from all areas of aviation: maintenance, ATC, pilots, airlines, FBOs, etc. We handed out coloring books from AOPA and spread the word of the Ninety-Nines.

Aviation Books

Chapter Member Beth Polcari has several aviation books she'd like to re-home. Some are outdated, but please contact her at eapolcari@hotmail.com if you're interested!

Gleim's Instrument Pilot
Gleim's Aviation Weather & Weather Services
Gleim's Fundamentals of Instruction
FAA Aviation Instructor's Handbook
Gleim's Commercial Pilot
Gleim's ATP

The Instrument Flight Training Manual by Peter Dogan
ASA 2 The Pilot's Manual Private & Commercial
FAA Instrument Flying Handbook
FAA Instrument Procedures Handbook

Jepp Private Pilot Test Guide
Jepp Instrument /Commercial Handbook
Sporty's Complete Flight Training Course
Jepp Private Pilot Manual
Jepp Private Pilot Workbook
Jepp Private Pilot FAA Practical Test Guide
FAA Aviation Weather
ASA Aerodynamics for Naval Aviators
The Turbine Pilots Flight Manual
FAA Airplane Flying Handbook

Dallas Chapter,

I have really enjoyed putting the newsletter together these past few years! I'm sorry to say that I have to step down, but we are expecting a little girl in December! My hands will be full for a little while. While we figure out who will be taking over, please send anything you'd like in the next newsletter to our Chapter Chair, Kaylee Jeffries.

Thanks, Peggy
